SUMMARY

Principal/senior engineering leader with 20+ years building web, backend, and AI-integrated systems. Recently led LLM features for a data analysis platform (natural-language querying, an MCP server, an API-key usage proxy); now building voiceover and animation tools and running AI agent workflows as founder of Minneron. Strengths in Python, JavaScript/TypeScript, Rust, and array languages (K, J, APL).

EXPERIENCE

Founder
Jan 2024 – Present
Minneron LLC · Hicksville, NY (Remote)

- Building voiceover and animation software for video creators. (make.minneron.com, minavo.app)
- Running a swarm of AI agents to formalize mathematical papers.
- Taking on AI-related consulting projects alongside product work.

Senior Director, Software Development
Jun 2025 – Aug 2026
SymphonyAI · Remote

- Added LLM-powered natural-language support to the company's data analysis platform.
- Built an MCP server that lets LLMs integrate with the platform.
- Built a proxy for sharing AI API keys and monitoring their usage.

Senior Software Development Engineer
May 2016 – Jan 2024
1010data · NYC Metro (Hybrid)

- Developed full-stack web applications and APIs in K, Python, JavaScript, and in-house languages.
- Created a user-extensible API for building applications on the platform.

Software Engineer (Contract)
Jan 2016 – May 2016
Balfour · Dallas, TX

- Developed yearbook desktop-publishing software with Flask (Python) and AngularJS.

Small Business Owner / Freelance Developer
Nov 2001 – May 2016
Cornerhost (Sabren Enterprises, Inc.) · Atlanta Metro

- Ran a web hosting company end to end, including its control panel, billing, and monitoring, mostly in Python.
- Took side contracts in Python, Perl, PHP, and Java (WordPress/Drupal, Android/App Engine, radio ad tooling).

PREVIOUSLY

Developer/Manager at StomperNet (Drupal/WordPress, Flash video library; introduced VCS and bug tracking). Java/XP developer at Media Ocean (TV ad negotiation; EJB↔DHTML messaging). Lead developer/analyst at Abel Solutions (intranet apps for Fortune 500, NGO, and state government clients). Trainer/developer at Nuesoft; QA analyst at First Command. Self-taught since middle school; AmeriCorps literacy tutor; studied Art & Performance and Cognitive Science at UT Dallas.
